ADS Users Group Meeting - 11/3/2007

Operations / Mid Term

- Transition
 - Have we gotten the steps right?
 - What else should we do to make sure the transition is successful?
- Prioritization
 - Of the remaining activities, what are the ones we should focus on first?
- Building out
 - What high level requirements should we consider as we build the new ingest and curation system?
 - How quickly should ADS be able to ingest a new record, parse a citation, or send out a notification based on a relevant event?
 - What new services should we support?

Strategic / Long Term

- Collaborations
 - What partnerships should we seek and for what purpose?
- Technology
 - How do we make sure we keep up with the latest development in digital library technologies?
 - How do we keep our skills current and relevant?
- Blue Sky Thinking
 - What is the next big thing in scholarly communication and how do we prepare for it?
 - What will our community need in the future that we are not providing?
 - How do we fit in NASA's strategic plan?
 - What should ADS do regarding Planetary Sciences?
